

Exact  | for Credit Risk

# UNDERWRITING CREDIT RISK IN A RESET WORLD

Exact for Credit Risk is our fully comprehensive credit and political risk exposure management module that can be found within our Exact product. Designed explicitly for credit insurers, Exact for Credit Risk enables you to swiftly and accurately capture and manage your entire portfolio of credit and political risks, including pandemic exposure.

Manage your accumulations of risk across obligors, guarantors, parent companies, and countries with real-time information to make the most informed decisions. Track exposures against changing limit amounts and control risk against those companies that have been placed on the watchlist to stay ahead of the curve.

Advantage ™

Revolutionising  
Insurance Software

Survey the geopolitical landscape and forecast future trends with powerful insights. With the ever-growing instability of the geopolitical environment, there's no doubt that with greater demands come greater risks.

Don't be exposed - streamline your credit risk assessment and underwriting procedures and stay ahead of the curve.

## FEATURES:

- ▶ Monitor exposures against capacity at company, subsidiary and global ultimate parent level
- ▶ Set obligor limits and suspend obligors
- ▶ Create and monitor obligor 'watchlists'
- ▶ Carry out quick pre-underwriting checks to identify existing exposures against buyers
- ▶ Capture endorsements and temporary credit limits
- ▶ Long tail amortisation and run-off monitoring
- ▶ Manage your credit and political risks by country against your changing risk appetite thresholds
- ▶ Customised dynamic dashboards monitoring exposures across companies, countries, and industries
- ▶ Receive real-time notifications of changes to Dun & Bradstreet data, credit limits or buyer limits
- ▶ Available as part of Exact's enterprise-wide exposure management system, enabling the management of accumulations of risk across all lines of insurance and reinsurance business

## BENEFITS:

- ▶ Proactively and confidently manage credit and political risks across your entire business on a single platform
- ▶ Stay ahead of your competition with cutting-edge risk analytics, credit scoring and aggregate limit control at the point of decision making
- ▶ Manage accumulations against individual companies, global groups of companies, industries, and countries
- ▶ Capture endorsements and temporary credit limits, and the monitoring of long-tail amortisation and runoff
- ▶ Access up-to-date company information, including credit ratings and parent company structure through connections to data suppliers such as Dun & Bradstreet within AdvantageGo's Microservices ecosystem
- ▶ Use personalised risk dashboards and flexible ad-hoc reporting to communicate accumulation information across the business
- ▶ Report on your accumulation of risk by perils such as confiscation, expropriation and other political risk perils
