and control across the entire (re)insurance lifecycle. Leveraging our pioneering Microservices, you can proactively manage risk with powerful real-time analytics and curated intelligence, to drive profitable growth.

Advantage ™

Revolutionizing
Insurance Software

THE PERFECT PRODUCT FOR RISK AND CLAIMS MANAGERS

In a world of uncertainty and change, you need to know your system is sophisticated enough to handle complexity, but also agile enough to rapidly respond. We've got you covered. Plus, we can offer intelligent automation, real-time analytics and high-speed process automation... all designed to give you greater insight and visibility over your entire portfolio. Need we say more?

FEATURES:

- ▶ Contextual embedded analytics to empower decision making
- ▶ Fully customizable Insurance Product Manager
- ▶ Seamless integration with document management and production systems
- ▶ Configurable user experience, providing embedded compliance and role-based experience
- ▶ Collaboration capabilities and integration with cloud services
- ▶ Service-oriented architecture with public API's
- ▶ Business rules and workflows

BENEFITS:

- ▶ Deliver operational efficiencies, eliminate data inconsistencies and drive down cost
- ▶ Confidently make better informed and more effective decisions with real-time analytics
- ▶ Enhance your understanding of risk leveraging ground-breaking, proactive data sources
- ▶ Reduce claims leakage and grow customer satisfaction with high speed automation and insightful data
- ▶ Rapidly respond to changing market conditions and accelerate your speed to market with a proven, flexible and configurable solution.

ANIITA - THE REVOLUTIONARY DIGITAL ASSISTANT

Combining Navigator with Aniita, you can easily access (re)insurance data and insights like never before. AdvantageGo's revolutionary digital assistant Aniita means that for the first time, you have swift and accurate access to business - critical information. Wherever you are, you can easily access Aniita's powerful curated insights by chatting with Aniita using your Smartphone

or Amazon's Alexa. Aniita connects to any policy administration, exposure management or third-party system as well as sourcing data from IoT and advanced machine learning, swiftly augmenting insights within seconds. Natural and responsive conversations and answers - when you need them.
